

## **SALT THERAPY / INFRARED SAUNA WAIVER CLIENT CONSENT:**

**Saltair Wellness Center's**, salt cave, infrared sauna, services, or products are not intended to treat, cure, heal, or prevent any illness or condition in place of physicians prescribed medication regimen and recommendations. All ailments and conditions should be evaluated by a physician competent in that particular condition. Saltair takes no responsibility for clients choosing to treat themselves using our facility, products, or services. All products and services provided by Saltair Wellness Center, including written information, labels, brochures and flyers as well as information provided orally or in any form of media communications are not intended to diagnose, treat, cure, or prevent diseases'. Saltair's custom built salt room is otherwise known as Halotherapy, a non invasive dry saline delivery method administered in a simulated salt environment. Saltair's salt cave, services and products are safe all natural compliments to your daily prescribed medication regimen given to you by your physician, and should not be used as a substitution for prescribed medications.

### **RARE POSSIBLE SIDE EFFECTS:**

1. Dry throat and increased coughing in the beginning when you implement Salt Therapy into your daily routine. This is a natural detoxifying and clearing process of the respiratory system. Salt therapy loosens and expels toxins and pollutants built up over time, from even the deepest part of the lungs.

2. Skin irritation and increased dermal sensitivity may occur when starting Salt Therapy. This condition usually dissipates after the third session.

3. Thirst and slight irritation of eyes. After and prior to use of salt rooms, consume significant amount of liquid to avoid dehydration. It is recommended to wait 5 minutes after completing your salt therapy session to consume liquid before leaving the premises to rehydrate.

Halotherapy is not recommended for the following conditions: Tuberculosis, Fever, Acute Inflammatory diseases, contagious conditions, or severe heart conditions. While Halotherapy is considered as a supplemental/elective treatment, it is not intended to substitute or replace medical care, treatment, or medications. Do not stop taking your regular medications unless directed to do so by your physician. The information contained herein is not intended to cover all uses, directions, precautions, warnings, drug interactions, allergic reactions or adverse effects.

If you have questions or concerns consult your physician.
